Plus Plan Monthly Payment	\$70.50 (males) \$82.00 (females)	\$67.00	\$75.00

Restrictions

You must call and make an appointment for exams. Walk in appointments will be seen but will be subject to additional fees and/or longer waiting times.

Kitten plans cover 3 dewormings per year, adult/senior plans cover 2 per year. If a patient needs any additional dewormings based on intestinal parasite screenings, the client will be responsible for that cost.

Kitten Plus Plans spay/neuter surgery must be performed no later than 30 days after the preoperative blood work is performed. If the surgery is delayed past this window for a non-medical reason, owner will be responsible for the cost of repeat blood work.

Kitten Plus plans do not cover microchip, pain medications, e-collar, or any fees related to deciduous teeth removal, dewclaw removal, hernia repairs, in-heat fees, or cryptorchidism.

Adult/Senior Plus plans use your pet's wellness blood work for your their preoperative blood panel. This blood work is good for 30 days. If you delay the dental cleaning past this time period, you will be responsible for the cost of a repeat blood panel.

Any fees related to the extraction of teeth or other procedures. An estimate will be provided to you for acceptance or denial of services recommended by the attending veterinarian.

Pets age determines eligibility for plan enrollment. Pets enrolled in Young Adult Plans who turn 7 during the year will be switched to a Senior Plan at the annual renewal date.
