

Pet Wellness Plans

For most of us, our pets are a part of the family and we want them in our lives as long as possible. The most important thing we can do for them is to focus on preventative care. We understand it can be difficult to keep up with the costs associated with your pets' care. That's why we are happy to now offer wellness plans.

Wellness Plans

- Our wellness plans cover your pet's vaccines, two intestinal parasite screenings, yearly monitoring bloodwork, routine deworming and two wellness exams.
- Every plan is affordably priced and comes with the convenience of low monthly payments.
- Your plan comes with other great benefits like 50% off additional visits and free monthly nail trims!
- Looking for an affordable way to spay or neuter your puppy or kitten? We have you taken care of. Our spay and neuter plans allow your pet to receive the highest quality medicine possible while keeping your costs to a minimum.

Preventative Medicine

Here at Armstrong Animal Clinic, we are firm believers in preventative care to keep your pets healthy.

Routine examinations are the best way to promote overall health. It allows our veterinarians to keep track of all of your pets' weights and their general condition. We like to have a baseline, in case your pets experience problems down the line

Did You know...

It's common for health problems to go undetected for long periods of time, so routine and preventative care is vital in catching potential health problems early.

With routine examinations we hope to find any problems before they become serious. When problems are left untreated, they can become much worse.

Routine examinations also give us a chance to talk to you about your pets. We might hear some concerns you have about your pets that need to be investigated further. We also can make sure that your pets are up to date on their vaccinations and that you have all the heartworm or flea and tick medications you need.
